Loving  
people,  
creating  
places

**OKAMURA**

# Loving people, creating places

To increase the number of people who can live their lives in their own way, and to build a society full of smiles, Okamura will continue loving people and creating places where they can thrive.

Okamura was established in 1945 by a group of engineers. Mikasa, Japan's first automatic front wheel drive car, developed by Okamura in 1955. The spirit of craftsmanship contributes to an environment where working people can thrive.

5  
YEARS

Casters, gas cylinder, adjusters and adjustment levers

2  
YEARS

Coating finish, mesh & fabric, cushions, and arm pads

20 YEARS  
OF  
OKAMURA  
WITH  
ITALDESIGN

*Contessa* 20<sup>th</sup> Anniversary

Leading furniture manufacturer, Okamura, joined forces with Turin-based design firm, ITALDESIGN in 2000, to create a world class office chair. Two years later, Contessa emerged, an instant classic. Contessa's form celebrates contrast. The sheer, transparent tension of stretched mesh across the seat and back provides an elegant counterpoint to the sleek, industrial weight of the aluminum frame. Iconic and enduring looks, with outstanding ergonomic functionality, have ensured this task chair quickly earned global acclaim. For the past 20 years, Contessa has remained a favorite in office seating.

Special Website

The Industrial Design Division of Italdesign, headquartered in Moncalieri, Torino – Italy, was established in 1981 and today is one of the most renowned and leading organizations in the industrial and transportation design fields on a worldwide level. Acclaimed for its proclivity in all-round functional design, Italdesign's projects range from automobiles to pieces of furniture, from tires to watches and home appliances.

## OKAMURA MATERIALS

### MESH WITH KAWASHIMA SELKON TEXTILES

Okamura's mesh by Kawashima Selkon Textiles, rooted in Nishijin-ori - a traditional type of weaving unique to Kyoto, Japan, has evolved in various ways design wise. Naturally, everything from material procurement, to mesh construction and chair assembly takes place in Japan. It's this 'Made in Japan' quality that makes our mesh seating so special.

### FABRIC WITH KVADRAT

Okamura and Kvadrat were united by a shared quest to create the highest quality and beautiful designs. Together we will continue to make work environments more creative and pleasing, by elevating the seating to the level of an exquisite, yet hardworking piece of art.

## Re:net

### ONE FOR THE OCEANS

Marine debris harms the delicate balance of ocean life. Our sustainable textile Re:net holds a benefit greater than its exquisite and subtle beauty. By choosing the product, created from salvaged fishing nets, you will play a part in protecting our oceans and marine life.

### INNOVATING FOR A BETTER WORKPLACE

From concept to completion, Okamura products are brimming with the creative spirit. Even the smallest details push the boundaries of conventional design, so we create something entirely new and wholly unique, again and again. All with the end goal to evolve the workplace, creating more productive, more creative, and happier environments.

# SHIBUSA

## Made in Japan

Simplicity, implicit, modesty, naturalness, everydayness, imperfection, and silence. In these traits, one discovers the Japanese aesthetic philosophy of Shibusa.

Suspended in the balance between simplicity and complexity, restraint and spontaneity, SHIBUSA by Okamura represents understated elegance and quiet confidence.

## Contessa II seconda

Made in Japan | Stock in HCMC

Since debuting on the world stage in 2002, the highly regarded Contessa has been reborn.

While the elegant lines of Contessa's original form have been maintained, the chair's functionality has been upgraded to meet the needs of our diverse global customers.

# Sphere

Made in Japan | Stock in HCMC

The casual light seating favored in shared settings is only intended for short duration sits. But behaviorally, on their office days, workers still tend to settle in for longer. Even if highly specified task chair is provided, very few workers take the time to make the beneficial micro adjustments, each time they settle in. Sphere has been designed to eliminate this compromise.

# Finora

Made in Japan | Stock in HCMC

Elevate your work in the uncompromised beauty of lightness.

Finora was designed to encapsulate beauty with streamlined thinness and lightness. By applying the design philosophy that is distinctive to the automotive industry, Finora provides the modern worker with a high level of functionality for the ultimate level in comfort in an office chair without sacrificing the esthetic design.

Color

Product Info.

# Muffle

Made in Japan

Muffle creates spaces within open offices that promote varying levels of concentration and collaboration. Streamlined to softly envelop, Muffle's gentle curves encourage relaxation, comfort and productivity. The multitude of color and layout options allows for diverse spaces that meet the needs of a variety of workers.

### Color

### Product Info.

# drape

Made in Thailand

drape is a minimal-sized pod with sound-absorbing capability. It takes up as little as four carpet tiles to build and transform open offices into a hub of concentration. The outer side of the two-toned panels are colored with brighter hues to uplift the office, while the inside panels are covered with a calming gray tone.

### Color

### Product Info.

# Alt Living

**Made in Thailand**

For workers, office comfort is a major factor that can influence the outcome of new business ideas and various projects. Alt Living is a sofa system that brings "living room comfort" to the current office. You can create a space where you can work more happily.

**Color**

**Product Info.**

# Lives Shelf

**Made in Thailand**

A shelf with a wide range of usability and configuration, extending the versatility of a display shelf. By reconsidering the structure of the frame and shelf board, it has evolved into a minimalistic design. Not only can it partition the space, but it also can allow or block the visual field with a combination of panels.

**Color**

**Product Info.**

# CHATBOX BY SILEN

Made in Republic of Estonia

Every open space deserves a Chatbox for deep work, private calls or a creative session. Increase your productivity by 25%. With over a decade of experience, we ensure superior soundproofing to increase your productivity.

Product Info.

Color

# SPRINT

Made in Japan

Don't just choose a space that matches your working style - create it. In conventional offices, workers all use the same meeting rooms. But "workstyle reforms" and working from home policies have significantly transformed the way we work. As workers' values become more diverse, what should the office of the future look like? Okamura believes that workers creating ideas in person through teamwork will define the next era of office work.

Product Info.

Color

# Posit-A

Made in Thailand

Posit is a partition system that features beautifully streamlined 40mm width panels that are available in a variation of sizes and colors, which can be easily configured to create an enclosed space in the office. Its clean and simple design blends into any kind of office ambiance at a reasonable price.

Color

Product Info.
