Straight (w/screen)

Straight (w/window)

Notice Including window panels 1) Angled sides cannot be formed using only window panels. For straight spans, bend the panels to the extent possible with up to a maximum of three spans. 2) The short side of angled compositions should be more than one-third the length of the straight side. 3) A window panel cannot be used for the end section. (Please use a plain panel for the end section of the layout.)

Notice 1. When using plain panels as stand-alone panels 1-A. With Free-standing legs 1) In most cases, you will need to attach free-standing legs to both the left and right end. 2) The maximum number of straight spans that can be connected is three. Free-standing legs can be used for up to two panels. 1-B. Without free-standing legs 1) When connecting panels in an L, T, or angular U shape, bend the panels to the extent possible with up to a maximum of three spans. 2) The short side of angled compositions should be more than one-third the length of the straight side. Or, the third span can be connected as the short side of a J or L shaped panel. 3) If using a J (or L) shaped panel in the center of a three span layout, a straight panel can be installed at the end. **2. Combining components for a layout with sofas and tables with plain panels** Please order the necessary number of designated sofa connectors and table connectors. **3. Including a multipurpose shelving unit in the layout** Please order the necessary items in line with the panel layout rules. **4. Ordering corner end caps** Please be sure to order the necessary number of corner end caps for the start and end of each panel.
