KD
STORAGE
SYSTEM

IDEAL FOR YOUR FILLING NEEDS

The KD Storage System allows you to save space by selecting storage modules based on your chosen document size. Also, you can use it as a partition to gently separate a workplace.

UTILIZABLE ELEGANCE

Two base color option available. You can create a unique office space that matches your needs.

Function

Not only can your files and documents be searched easily, the KD Storage System also incorporates a number of security features. In addition, the system is designed with earthquake countermeasures.
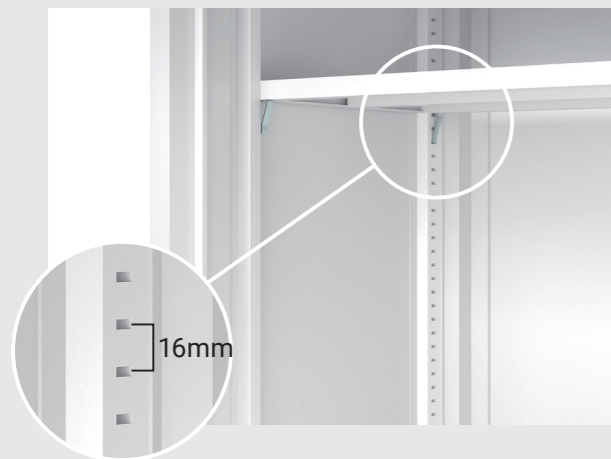

Lateral Filing Cabinet

Accommodates up to A4-size files, with three dividers per drawer. Latched drawers remain closed in the event of an earthquake.
Maximum load capacity: 40kg

Triple Sliding Door Storage

Offering a wider opening than the double sliding doors, these doors allow for convenient access to the middle section and storing larger items.

Adjustable Shelves

16mm

The shelves are easily adjustable in 16mm intervals to allow for storage of different sized items.
Maximum load capacity: 40kg

Double Hinged Doors (180°)
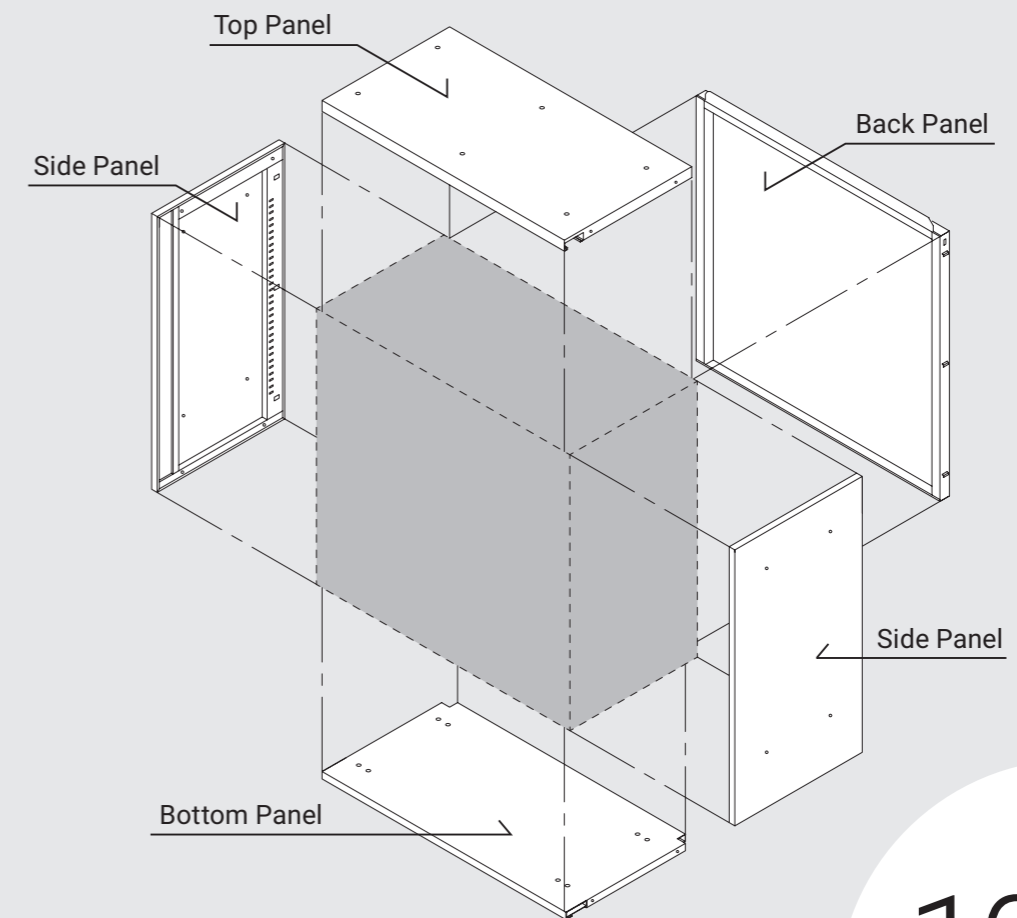

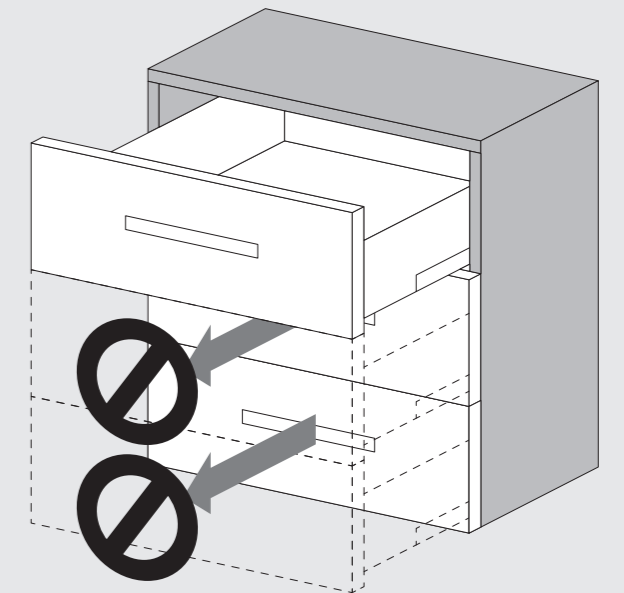

Convenient access to files.
The hinged doors open 180 degrees without blocking aisles.

Safety Lock Mechanism

In order to prevent tipping from a unbalanced load, a safety lock mechanism prevents more than one drawer from being opened at once.

All-Lock Mechanism

The all-lock mechanism prevents opening of all the drawers.

Assembly Combination & Knockdown Structure

The Knockdown structure of the KD Storage System makers for simple assembly or dismantling, allowing simple installation and/or disposal [does not apply to the lateral file cabinet or crystal case].
